

77753 XXX WATERBORNE GUN CLEANER

TECHNICAL DATA SHEET

Description

77753 XXX WATERBORNE GUN CLEANER is designed to easily remove waterborne coatings from spray equipment.

Features

- VOC Compliant
- Does not contain chlorinated solvents
- Convenient aerosol packaging
- Quick action formulation

Typical Properties

Container	16 oz. Aerosol
Color	Clear
VOC	76 g/l (.64 #/gal)

Handling and Application

APPLICATION:

Shake lightly and apply **77753 XXX WATERBORNE GUN CLEANER** directly on surface to be cleaned and wipe with a clean lint-free cloth. Attach the straw wand to the spray tip for hard to reach areas and easily blast waterborne coatings away.

NOTE: 77753 will work best with waterborne coatings while they are still wet. Fully dehydrated coatings are more difficult to remove. Clean equipment as soon as possible following application.

NOTE: If used inside of a safety can for waste collection, dispose of waste paint and cleaner in a method compliant for your area.

NOTE: Not for use with solvent based coatings.

STORAGE:

77753 XXX WATERBORNE GUN CLEANER should be stored in a cool, dry place with adequate ventilation away from heat, sparks and flames. The shelf life for **77743** is 2 years when stored under normal conditions.

TECHNICAL CONSULTATION SERVICE

Our Technical Staff is ready to assist you with any questions. You are invited to take advantage of our extensive experience, laboratory services and trained field service representatives. Call (800) 831-1122 for answers to your questions. Hours of operation are Monday through Thursday 8:00 am until 5:00 pm EST and on Friday 8:00 am until 4:30 pm EST.

DISCLAIMER: The information supplied in this document is for guidance only and should not be construed as a warranty. All implied warranties are expressly disclaimed. All users of the materials are responsible for assuring that it is suitable for their needs, environment and use. All data subject to change as SEM deems appropriate.

Users should review the Material Safety Data Sheet (MSDS) and product label for the material to determine possible health hazards, appropriate engineering controls and precautions to be observed in using the material. Copies of the MSDS and product label are available upon request.
